Message from the Director

"At AIMS Maritime Group, our vision is to empower the next generation of maritime professionals through innovative education, cutting-edge technology, and an unwavering commitment to excellence. The maritime industry is the backbone of global trade, and we recognize the responsibility we carry in shaping its future by preparing skilled, knowledgeable, and safetyconscious individuals.

Our institute stands apart with its state-of-the-art facilities, including simulators for bridge, engine room, and cargo handling operations, live galley and messroom training for catering staff, and globally accepted Type Specific All Brand ECDIS training programs. These resources, coupled with our IRQScertified quality management system and international approvals from bodies like the MCA UK, Liberia, and Panama Maritime Authorities, ensure that our training is at par with global standards.

At AIMS, we do more than teach; we inspire innovation, foster resilience, and instil a culture of safety and sustainability. Our courses are led by highly experienced maritime professionals—Masters, Chief Engineers, and certified trainers—who bring real-world expertise to the classroom. Through partnerships with industry leaders and regulatory bodies, we continuously adapt our programs to meet the evolving challenges of the maritime world.

We are proud to contribute to the maritime sector by developing professionals who excel in their roles while upholding the highest standards of safety, security, and environmental stewardship. As we continue to expand and innovate, I invite you to join us in charting a course towards a brighter, safer, and more sustainable future for the maritime industry."

”

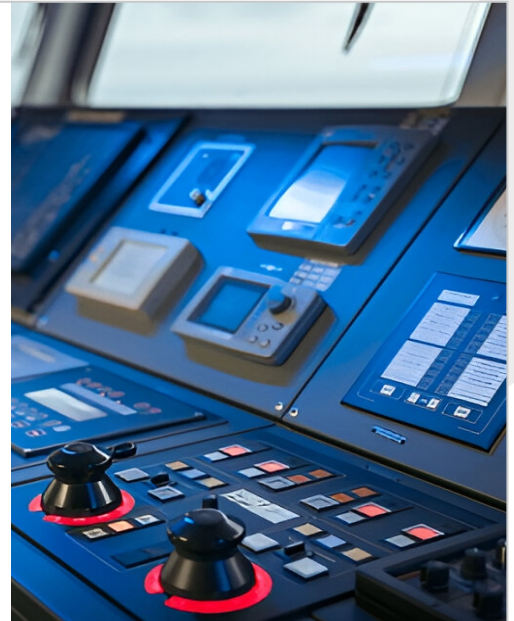

Capt. Pradeep Singh Ahuja
Director, AIMS Maritime Group

About Us

AIMS Maritime Group: Your Gateway to Maritime Excellence

Nestled in the maritime hub of Mumbai, AIMS Maritime Group is a premier center for world-class maritime education and training. Since its inception,

AIMS has been at the forefront of fostering excellence in maritime operations, equipping professionals with the knowledge, skills, and confidence to thrive in a competitive industry.

State-of-the-Art Training Infrastructure:

- **Live Galley, Messroom, and Cabin:** Tailored for ship catering staff training, these facilities replicate real onboard environments to provide hands-on experience.
- **Full Mission Bridge Simulator:** Prepare for the complexities of ship navigation with cutting-edge simulation technology.
- **Engine Room Simulators:** Immerse yourself in realistic machinery operations to enhance engineering expertise.
- **Liquid Cargo Handling Simulators (Oil, Chemical, LPG, LNG):** Certified by DNV Class, these simulators offer unparalleled training in handling various cargo types.
- **Type-Specific ECDIS Training:** Comprehensive training programs for all ECDIS manufacturers ensure operational excellence.
- **Smart Classrooms:** Equipped with advanced audiovisual aids, our classrooms support both in-house and online learning, fostering a seamless educational experience.
- **Simulators are DNV Class Approved**

Unparalleled Expertise:

Our institute is staffed by highly experienced Masters, Chief Engineers, and certified maritime professionals, supported by dedicated personnel with a passion for delivering excellence. We pride ourselves on offering training led by industry veterans who bring real-world insights to the classroom.

International Standards & Accreditation: AIMS Maritime Group takes pride in meeting the highest standards of quality management, as assessed and certified by IRQS, ensuring adherence to global best practices. Our comprehensive curriculum is meticulously aligned with international regulations and conventions, including IMO, STCW, SOLAS, MARPOL, and the ISPS Code, to equip maritime professionals with the skills required for excellence in the industry.

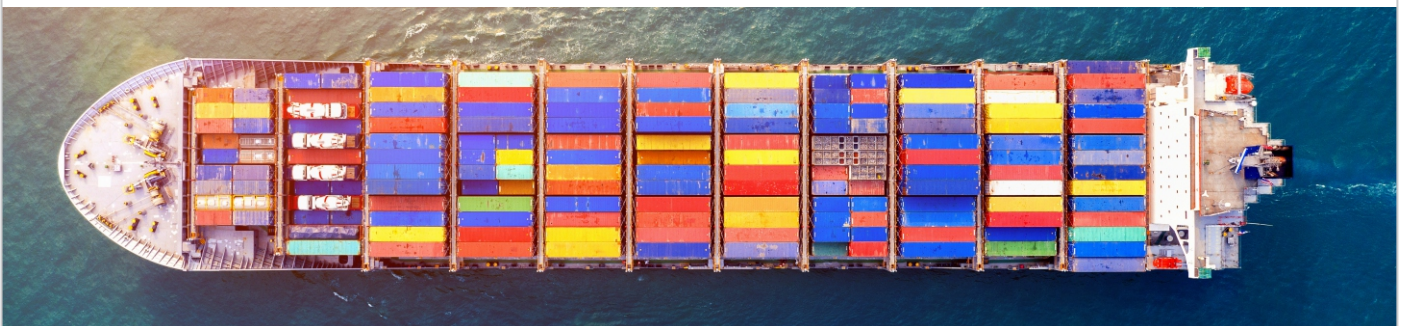

Many of our courses are approved and assessed by prestigious bodies such as the Maritime and Coastguard Agency (MCA) UK, the Liberia Maritime Authority, and the Panama Maritime Authority, reinforcing our commitment to delivering internationally recognized training programs.

At AIMS, we continually strive to set benchmarks in maritime education, offering globally compliant and industry-relevant certifications to empower maritime professionals worldwide.

Comprehensive Course Portfolio:

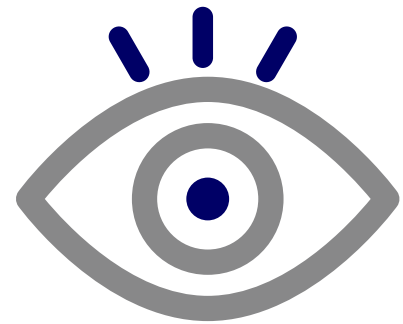

We offer a diverse range of courses, including:

- Bridge Team and Resource Management
- ICE Navigation and Polar Code Operations
- SIRE 2.0 Awareness and Standards
- LCHS – LPG, LNG, Oil, and Chemical Tankers
- Maritime English Course
- Port State Control Inspection Preparation
- Engine Room Team, Simulator and Resource Management
- Passenger Ship Safety Courses
- Proficiency in Crisis Management and Human Behaviour
- MCA UK, Panama and Liberian Registry Courses
- Maritime Cybersecurity Awareness

Our Vision

To be the global leader in maritime education, empowering professionals to achieve excellence in every facet of their career.

Our Mission

To deliver innovative, comprehensive, and industry-relevant training solutions tailored to the evolving needs of the global maritime industry.

Join AIMS Maritime Group and unlock your potential with training that combines cutting-edge technology, expert guidance, and an unwavering commitment to quality. Together, let's navigate the future of maritime excellence.

Course Category

- Maritime Safety Courses

Why Choose AIMS Maritime?

- **Global Recognition:** Accredited by leading maritime organizations.
- **Expert Faculty:** Industry professionals with hands-on experience.
- **Advanced Facilities:** State-of-the-art simulators and training equipment.
- **Comprehensive Curriculum:** Covering all aspects of maritime safety, security, and operations.
- **Proven Track Record:** Thousands of certified seafarers across the globe.

"Learn. Lead. Excel."

Accreditation Approvals and Membership

We are proud to share the approval and accreditations earned for the exceptional Course programs.

We work with best Partners from shipping Industries, which assure quality training Services.

Maritime Safety Courses

"Ensuring Safety, Every Step of the Way."

Maritime safety is a cornerstone of global shipping operations. Our courses focus on enhancing the knowledge and skills required to manage risks, ensure compliance, and maintain operational efficiency. By addressing critical safety protocols and industry best practices, we prepare maritime professionals to handle challenges effectively.

Your Safety,
Our Priority

Enhance your maritime safety knowledge with our specialized courses:

- Bridge Team Management
- Bridge Resource Management
- Risk Assessment & Risk Management
- Ship Handling and Advanced Ship Handling
- Training for Ships Operating in Polar Waters
- Training For Ships Using Fuels Covered Within the IGF Code
- LNG as fuel
- LNG Bunkering
- Ice Navigation
- Shipboard Safety Officer
- Large Vessel Handling Course
- International Safety Management
- Behaviour-Based Safety
- Confined Space Entry & Rescue
- Maritime Labour Convention (MLC) 2006 Familiarization
- MARPOL
- Container Familiarization
- Safe Working Practice
- Environmental Compliance Training
- Environmental Safety Training
- Seafarers' mental health and wellbeing
- Introduction and Commercial Shipping Knowledge
- Seafarer and Maritime Media Response Training

"Setting new standards in maritime safety through specialized training."

Highlight Features:

- **Hands-on Safety Drills:** Practical exercises designed to build real-world skills.
- **Simulation-Based Learning:** Training conducted on **Full Mission Bridge** Simulator DNV Class Approved Simulators, providing a realistic and immersive learning environment.

Polar Water and Ice Navigation Training

"Polar Expertise for Safe and Efficient Voyages."

Operating in polar waters requires specialized knowledge and skills. Our training programs equip seafarers with expertise in ice navigation, risk management, and compliance with the IMO Polar Code, ensuring safe and efficient voyages in challenging environments.

Courses Offered:

- Training for Ships Operating in Polar Waters
- Ice Navigation

Highlight Features:

- **Navigating Extreme Conditions:** Specialized training for safe and effective operations in polar waters.
- **IMO Polar Code:** Ensures adherence to the highest safety and environmental standards.

IGF Code Training

"Safe Operations with IGF-Compliant Fuels."

As the maritime industry embraces sustainable fuels, IGF Code training ensures safety and compliance. Our courses cover LNG bunkering, fuel handling, and operations under extreme conditions, enabling seafarers to manage low-flashpoint fuels efficiently.

Courses Offered:

- Training for Ships Using Fuels Covered Within the IGF Code
- LNG as Fuel
- LNG Bunkering

Highlight Features:

- **Specialized Training in Low-Flashpoint Fuels:** Designed to meet IMO and IGF Code standards.
- Realistic training environments for operational and emergency scenarios.

Maritime Security Courses

"Securing Ships, Safeguarding Lives."

With rising global threats, maritime security is more crucial than ever. Our courses are designed to equip seafarers with the skills to manage security challenges, comply with international standards, and protect ships, cargo, and crew. From awareness to specialized duties, our programs cover all aspects of maritime security.

Specialized Security Training Prepare for global maritime security challenges with our expert-led courses:

- Company Security Officer (CSO)
- Maritime Security Awareness
- Ship Security Officer (SSO)
- Designated Security Duties for Seafarers Training Course
- Security Awareness Training Course
- Designated Security Duties for Cruise Ship Staff Training

Highlight Feature:

- **Compliance with ISPS Code:** Training aligned with international security standards to ensure global maritime safety.

Maritime Catering Courses

"Catering Excellence for the High Seas."

Quality catering plays a pivotal role in maintaining crew morale and health onboard ships. Our catering courses provide hands-on training in food preparation, hygiene, and safety, ensuring compliance with international standards. Designed for aspiring cooks, stewards, and housekeeping staff, these programs meet MLC requirements.

Expert Catering Training Master the art of catering with our comprehensive programs:

- Ships Cook Certificate Course (Indian/Continental/Italian)
- Messman / GS / Steward Training Program
- Advanced Food Safety, Hygiene, and Handling
- Hazard Analysis and Critical Control Points (HACCP)
- Ships Cook's Trade Test
- Messman / GS / Steward Trade Test
- Housekeeping Training Program
- Laundryman Training Program

Highlight Feature:

- **Specialized Training for Diverse Cuisines and Food Safety:** Courses tailored to meet the culinary demands of international shipping.
- **State-of-the-Art Live Galley, Messroom, and Cabin:** Tailored for ship catering staff training, these facilities replicate real onboard environments to provide hands-on experience.

Compliance and Standards:

Our courses adhere to MLC 2006 Regulation 3.2 – Food & Catering Training.

Maritime Offshore Courses

Offshore Ready, anytime, anywhere.

Courses Offered:

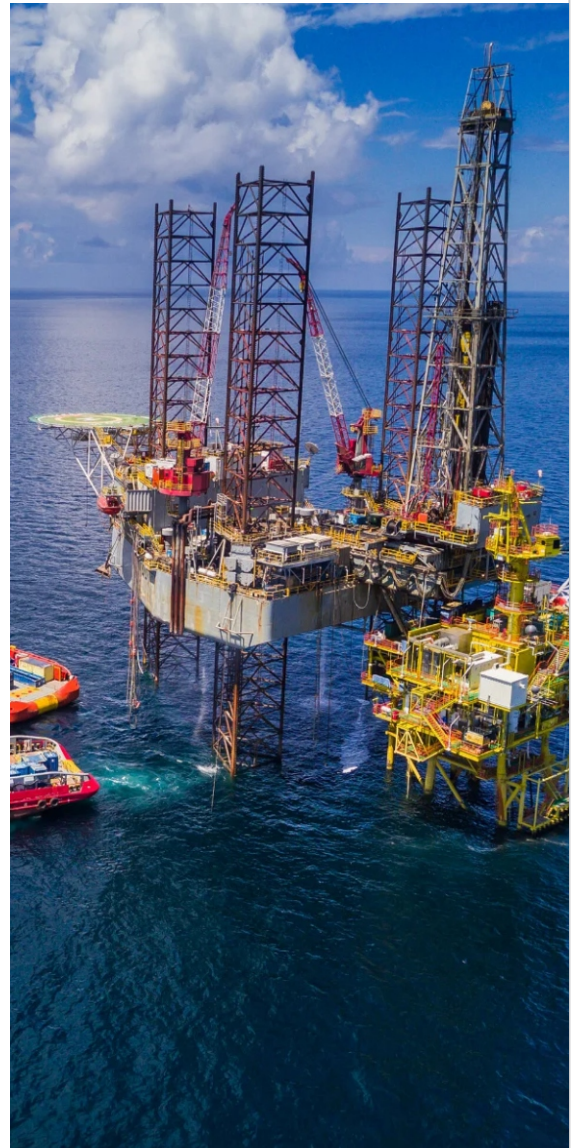

- Hydrogen Sulphide Safety (H2S).
- Helicopter Underwater Escape Training (HUET)
- Basic Offshore Safety Induction & Emergency Training (BOSIET)
- Helicopter Landing Assistance (HLA)
- Helicopter Emergency Response Team Leader
- Safe Lifting and Hoisting
- Personal Transfer Basket
- Enclosed Space Entry
- Offshore Anchor Handling
- Accident Investigation
- Fast Rescue Boats / Craft
- Crane Operator.
- Rigging and Slings

Highlight Features:

- Comprehensive safety protocols and offshore survival techniques
- **Practical Offshore Safety Training:**
Learn hands-on through live training on actual Fast Rescue Boats at the riverfront, with launching and recovery facilities.

Get Offshore Ready Today!

Prepare for a successful and safe offshore career with AIMS Maritime's industry-leading training programs. Your safety is our priority.

Marine Engineering Skill Development Courses

"Engineering Excellence at Sea."

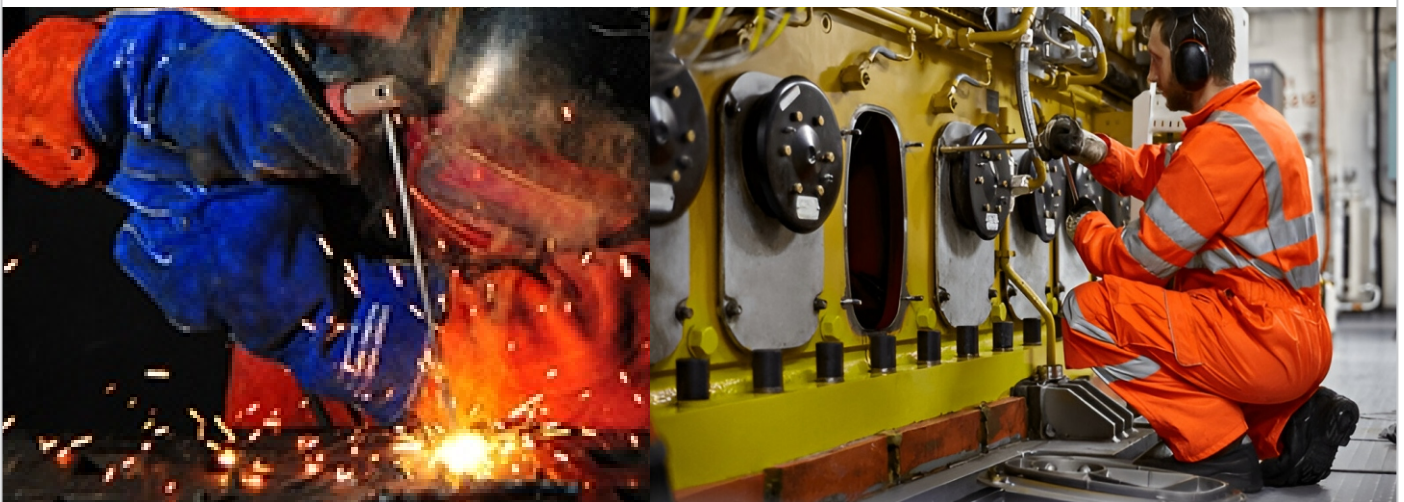

The marine engineering domain demands high levels of expertise and precision. Our skill development courses bridge the gap between theoretical knowledge and practical application, focusing on engine room operations, safety protocols, and advanced engineering practices.

Courses Offered:

- Engine Room Team Management (ERTM)
- Engine Room Resource Management (ERRM)
- Engine Room Simulator (with ERM Operational Level)
- Marine High Voltage Safety Course
- FRAMO Training
- ME Engine Course

Highlight Features:

- **Industry-Grade Workshops and Practical Training:** Experience hands-on learning with real-world applications.
- **Simulation-Based Learning:** Training conducted on DNV Class Approved Simulators, providing a realistic and immersive learning environment.

Type-Specific ECDIS Training

"Navigating the Digital Seas with Precision."

As modern ships rely heavily on ECDIS for navigation, it is essential for officers to be proficient in its operations. Our courses provide in-depth training on multiple ECDIS systems, ensuring compliance with international requirements and enhancing navigational safety.

Courses Offered:

Gain expertise with manufacturer-specific ECDIS training:

- Transas Wartsila
- Tokyo Keiki
- JRC
- Kelvin Hughes
- Martek
- Consilium
- ChartWorld
- Sperry Marine
- Raytheon Ansch tz
- Furuno
- KONGSBERG
- Navmaster
- TOTEM PLUS
- DANELEC MARINE
- MECys PM3D
- IMTECH
- SIMRAD

Highlight Features:

- **Online and Offline Options Available:** Flexible training modes to suit your schedule.
- **All Manufacturers' ECDIS Training Under One Roof:** Comprehensive programs for every system.
- **Practical, Unlimited Exercises:** Hands-on training to master navigation systems effectively.

Passenger Ship Courses

"Passenger Safety First."

Passenger ships require specialized training to ensure the safety and comfort of passengers. Our courses focus on safety management, crisis response, and regulatory compliance to prepare professionals for the unique challenges of passenger vessels.

Courses Offered:

- Proficiency in Passenger Ship Safety Crowd & Crisis Management
- Passenger Ship Familiarization

Highlight Feature:

- Meeting STCW Requirements: Ensuring the highest standards for passenger safety.

SIRE 2.0 Compliance Course

"Setting Standards in Tanker Operations."

As you are aware, recently launched SIRE 2.0 Part 1 Section 3 Crew Training Requirements have been introduced to enhance safety, operational competence, and regulatory compliance in vessel operations. These requirements ensure that key crew members are thoroughly prepared for both routine operations and emergency scenarios.

Key Highlights from SIRE 2.0 Crew Training Requirements:

- **3.3.1. Bridge Team Management Training**

Masters and all navigation officers must complete a shore-based Bridge Team Management course, focusing on crew resource management in a bridge simulator environment.

Applicable Vessel Types: Oil, Chemical, LPG, LNG

Guidance: IMO Model Course 1.22 – Ship Simulator and Bridge Teamwork

- **3.3.2. Formal Ship Handling Training**

Masters require formal ship handling training prior to promotion or assignment to vessels with different handling characteristics.

- **3.3.3. Liquid Cargo Handling Simulator Training (LCHS)**

Masters, deck officers, and cargo/gas engineers must attend simulator courses covering routine and emergency cargo operations within the last five years.

Applicable Vessel Types: Oil, Chemical, LPG, LNG

Guidance: IMO Model Courses 1.35, 1.36, and 1.37

- **3.3.4. Engine Room Management Simulator Training**

Chief Engineers and all engineer officers need to complete a shore-based engine room management simulator course, covering both routine and emergency operations.

Applicable Vessel Types: Oil, Chemical, LPG, LNG

Guidance: IMO Model Course 2.07 – Engine Room Simulator

- **3.3.6. LNG or Low-Flashpoint Fuel Training**

Personnel handling LNG or low-flashpoint fuels must complete appropriate training and familiarization.

Highlight Features:

- Ensuring Compliance with Advanced Safety Protocols: Designed to meet the latest SIRE 2.0 and TMSA standards.
- Simulation-Based Learning: Delivered both online and offline using DNV Class Ship Simulations.

Our programs ensure your crew is fully trained and certified to manage operational challenges safely and effectively. We are committed to assisting your company in fulfilling these requirements and providing the certifications needed to demonstrate compliance during inspections.

Cyber Security Courses

"Securing the Digital Maritime Landscape."

Cyber threats pose significant risks to maritime operations. Our courses provide critical training to protect vessels from cyberattacks, ensuring secure navigation and communication systems. Developed for seafarers and maritime officers, these programs comply with ISM requirements and address the evolving challenges of the digital era.

Courses Offered:

- Cyber Security Awareness
- Cyber Security for Maritime Officers

Highlight Features:

- **Tackling Emerging Cyber Threats in Maritime:** Focused on securing maritime operations against modern cyber challenges.
- **Compliance with ISM Requirements:** Courses aligned with international safety and management codes.

Liquid Cargo Handling Simulator Training (LCHS)

"Mastering Liquid Cargo Handling."

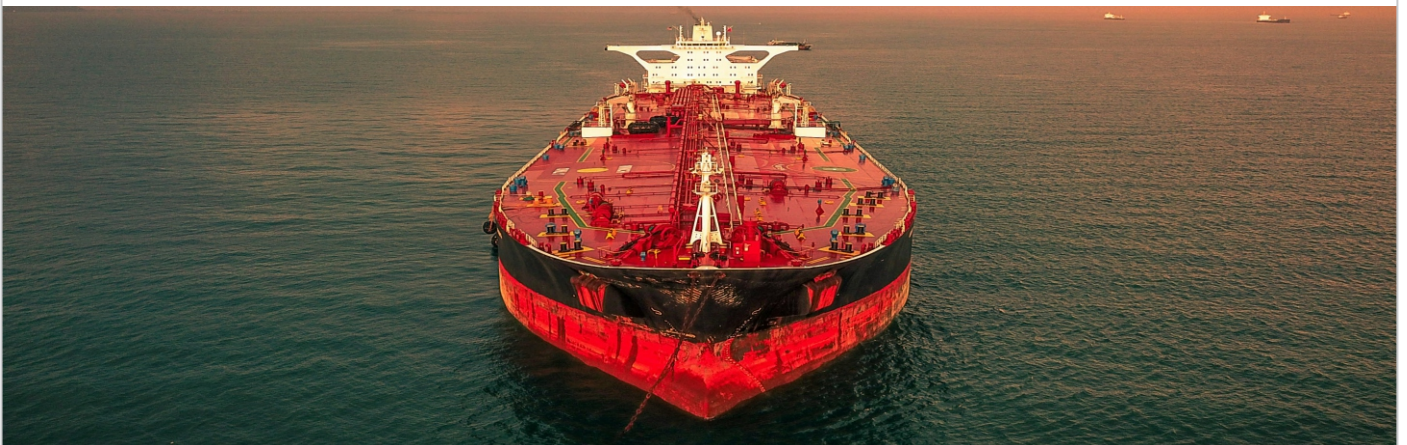

Handling liquid cargoes demands precision and expertise. Our simulator-based training programs focus on routine operations, emergency scenarios, and compliance with international standards for oil, chemical, and gas cargoes. These courses are designed to enhance operational safety and efficiency.

Courses Offered:

- Liquid Cargo Handling Simulator Training (LCHS-OIL)
- Liquid Cargo Handling Simulator Training (LCHS-Chemical)
- Liquid Cargo Handling Simulator Training (LCHS-Gas)
- Liquid Cargo Handling Simulator Training (LCHS-LNG)

Highlight Features:

- **Industry-Relevant Simulations for LNG Cargo Management:** Covering key operational competencies.
- **Hands-on Safety Drills:** Practical exercises designed to build real-world skills.
- **Simulation-Based Learning:** Training conducted on LCHS OIL CHEM LPG LNG DNV Class Approved Simulators, providing a realistic and immersive learning environment.

Marlins Test Center & Maritime English Proficiency

Approved
Test Centre

"Global Communication for Maritime Success."

Effective communication is vital in the maritime industry. Our English proficiency programs, including the internationally recognized Marlins tests, are tailored for seafarers, cruise ship staff, and offshore workers. These certifications enhance communication skills and global employability.

Courses Offered:

- Maritime English
- Marlins English Test for Seafarers
- Marlins English Test for Cruise Ship Staff
- Marlins English Test for Offshore Workers

Highlight Features:

- **Internationally Recognized Certifications:** Trusted worldwide for maritime communication proficiency.
- **Marlins Approved Test Center:** Official testing and certification center.

MCA UK Approved Courses

"Global Standards, Local Excellence."

Maritime &
Coastguard
Agency

MCA accredited course provider

MCA UK-approved courses tailored to meet global maritime standards. These programs are designed to ensure safety, compliance, and operational excellence across various maritime disciplines, courses prepare professionals to excel in demanding maritime roles and adhere to international best practices.

Courses Offered:

- Crisis Management and Human Behaviour Training Course (MCA)
- Designated Security Duties for Seafarers Training Course (MCA)
- Security Awareness Training Course (MCA, NMA)
- Designated Security Duties for Cruise Ship Staff Training Course (MCA)
- Ship Security Officer Training Course (MCA, NMA)
- High Voltage (Operational Level) Training Course
- Basic Oil and Chemical Tanker Training Course
- Advanced Oil Tanker Training Course
- Advanced Chemical Tanker Training Course
- Basic Liquefied Gas Tanker Training Course
- Advanced Liquefied Gas Tanker Training Course
- Basic Training for Service on Ships Subject to IGF Code

Highlight Features:

- MCA-Accredited Certification Courses: Globally recognized standards for maritime professionals.

Liberia and Panama Maritime Authority Approved Courses

"Certified for Excellence."

Accredited by the Liberia and Panama Maritime Authorities, these courses provide a robust foundation for maritime professionals. Covering all basic and advanced modular and simulator-based training, our programs adhere to IMO Model Course standards, ensuring proficiency and compliance with international maritime regulations.

Courses Offered:

- All Basic and Advance Modular and Simulator based Courses As per IMO Module Course

Highlight Features:

- **Globally Accredited Certification:** Trusted by the Liberia and Panama Maritime Authorities for training excellence.

Ship Flag State Seafarers Crew Documents

"Certified for Excellence."

AIMS Maritime specializes in providing reliable and efficient crew and ship documentation services, including flag state seafarer documents. Authorized by leading maritime authorities, AIMS ensures seamless processing and compliance with international standards, including issuing **Panama PDE (Previous Documentation Evaluation Certificates)**.

Our experienced team works closely with shipowners, manning consultants, and Ship operators to manage end-to-end documentation, ensuring vessels avoid unnecessary delays during inspections and port controls. We prioritize accuracy, professionalism, and customer satisfaction, streamlining the process to save time and effort for seafarers and maritime stakeholders.

Courses Offered:

- All Basic and Advance Modular and Simulator based Courses As per IMO
- Module Course

Highlight Features:

- Globally Accredited Certification: Trusted by the Liberia and Panama
- Maritime Authorities for training excellence.

Choose AIMS for:

- Trusted and authorized maritime documentation services.
- Expertise in managing seafarer certifications, renewals, and upgrades.
- Personalized solutions and high-quality standards.

With AIMS Maritime, documentation is handled efficiently, allowing you to focus on safe and effective maritime operations.

Crew Certification and Documentation Services Available For:

- Panama
- Liberia
- Marshall Islands
- Bahamas
- St. Vincent and the Grenadines
- Antigua and Barbuda

AIMS Maritime ensures seamless documentation services across these flag states, delivering reliability and compliance globally.
